

The International Symposium on Spatial and Temporal Databases 2015(SSTD 2015) is the fourteenth event of a series of biannual symposia that discuss new and exciting research in spatial, temporal and spatio-temporal data management and related technologies and start setting future research directions. The primary focus of SSTD symposia is on original results in the areas of theoretical foundations, design, implementation, and applications of spatial and temporal database technology. SSTD also welcomes experience reports from application specialists and the commercial community that describe lessons learned in the development, operation, and maintenance of actual systems in practical and innovative applications. The goal is to exchange research ideas and results across academia, industry and government from diverse geographies, and career stages.

SSTD 2015 will be held in Seoul, South Korea, August 26-28, 2015 at Center Mark Hotel, which is located at Insa-Dong, the most tourist place in Korea.

Authors are invited to submit original research contributions or experience reports. Similar to the previous symposia, accepted papers will be published by Springer as proceedings in Lecture Notes in Computer Science (LNCS). The space limit for full papers is 18 pages LNCS style. Details about the submission process can be found <http://sstd2015.org>. Topics include, but are not limited to, the following in context of spatial, temporal and spatio-temporal databases:

- Access Method
- Big Data
- Computational Geometry
- Critical Evaluation of Standards Proposals
- Crowdsourcing Spatial Data
- Database Design and Conceptual Modeling
- Data Mining and Knowledge Discovery
- Data Quality and Cleaning
- Data Types and Query Languages
- Data Warehousing and Decision Support
- Experiments, Benchmarks and Performance Evaluation
- Geographic Information Retrieval
- Graph Modeling and Algorithms
- Keyword Search in Databases
- Indoor Space
- Ontologies and Taxonomies
- Parallel and Distributed Databases
- Privacy, Security and Integrity
- Query Optimization
- Real Applications and Systems
- Recommendation Systems
- Spatial (Road) Networks
- Sensor Networks
- Spatial Data Streams
- Uncertain, Imprecise and Probabilistic Data
- User Interfaces and Visualization
- Web Information Retrieval

Important Dates

- Abstract by March 27, 2015
 → **extended to April 3, 2015**
- Full Paper/Demo/Vision paper by April 3, 2015
 → **extended to April 10, 2015**
- Notification by May 22, 2015
- Camera-Ready Copy by June 10, 2015

SSTD Steering Committee
 (Board of directors)
 Ralf Hartmut Güting
 Agnès Voisard
 Nikos Mamoulis
 Yan Huang
 Elisa Bertino
 Claudia Bauzer Medeiros
 Mario Nascimento

Honorary Chair
 Kyu-Young Whang
General Co-chairs
 Cyrus Shahabi
 Ki-Joune Li
PC Co-chairs
 Christophe Claramunt
 Raymond Chi-Wing Wong
 Markus Schneider

Demo Chair
 Li Xiong
Publicity Co-chairs
 Jin Soun Yoo
 Baihua Zheng
Sponsorship Co-chairs
 Siva Ravada
 Erik Hoel
 Mehdi Sharifzadeh

Proceedings Chair
 Woong-Kee Loh
Local Arrangement Chair
 Hae-Kyong Kang
Treasurer
 Juhyun Ham
